# SDD-DM series

W hole Fam ily: SDD-xx100-D1M DC-(xx= 24V 48V) [60W 96W 100W 120W 160W ]

# FC Class P SELV RoHS Reach

#### Features

Output:	Constant Voltage		
Input Range:	120VAC		
PFC design:	Built-in active PFC function		
Protections:	Short circuit/ Over load/Over tem perature		
Heat dissipation:	Cooling by free air convection		
W aterproof perform ance:	For dry and damp locations (US)		
Design features:	1) Fine-tune output voltage can be adjusted slightly		
	2) Presetdimmerwithon/offswitch		
	3) 3-W ay sw itches		
	4) Elim inated compatibility issues between drivers and switches		
Dim m ing range:	0.3% -100%		
Application:	Su itab le for the application of LED lighting		
W arranty:	5 years warranty		
0 thers:	16KH Z PW M output w ith d im m ing curve is a gam m a 2.2 curve Flicker-free

## Efficiency Curve (efficiency vs output load)

#### Pow er factor curve

Derating Curve (Output power VS Am bient TEM P)

- 1. To extend their life, please refer to the Derating Curve and derate according to the temperature.
- 2. The output current of the LED driver should be selected according to the rated current of the lamp and the ambient temperature.

  Normally, we recommend the power supply to reserve a certain amount of load to extend LED driver's life.

#### Warm tips:

- 1. Any other requests, we can custom ize.
- 2. Please ensure that the connection is correct.

#### In structions

- 1. This driver+ d in mer 2 in 1 should be installed by qualified and professional person.
- 2. Please make sure the driver+dim mer 2 in 1 is installed with adequate ventilation around it to allow for heat dissipation.
- 3. Ensure that connection is correct to avoid LED light ordriver+dim mer 2 in 1 be damaged.
- 4. If the driver+dim m er 2 in 1 cannot work norm ally, don't maintain privately.
